PROFESSIONAL SUMMARY

Front-End Developer with 3+ years of software development experience across React.js, TypeScript, Next.js, JavaScript and MERN-stack applications. Currently building production SaaS products at Realesy Software Pvt Ltd, including a real-estate/signage web platform, browser-based design studio and React Native mobile application. Experienced in complex business workflows, reusable UI architecture, forms, data tables, role-based experiences, payments, maps/location features and REST API integrations.

TECHNICAL SKILLS

Front End	React.js, TypeScript, JavaScript (ES6+), Next.js, HTML5, CSS3
UI / Styling	Bootstrap, Tailwind CSS, Material UI, Responsive Design, Figma
State / Forms	Redux, Zustand, TanStack Query, Formik, Yup, React Hook Form, Zod
Mobile	React Native, Expo, React Navigation, NativeWind, Expo SecureStore
MERN / APIs	Node.js, Express.js, MongoDB, REST APIs, Authentication & Authorization
Tools / Integrations	Git, Postman, Stripe, Google Maps/Places, AWS Lightsail/EC2, React Konva

PROFESSIONAL EXPERIENCE

Realesy Software Pvt Ltd | Front-End Developer | Jun 2025 - Present

Products: Realesy Web Platform | Realesy Studio | React Native Mobile App

- Build and maintain React + TypeScript features for Realesy's multi-role SaaS platform, including installation/removal, inventory, payments, batch payments, reporting and permission-aware workflows.
- Contribute to Realesy Studio, a React Konva design editor with multi-page canvas, smart guides, image cropping, rich text, buyer permissions and PNG/JPEG/PDF/SVG/JSON export workflows.
- Develop React Native / Expo mobile features using TypeScript, React Navigation, Zustand, TanStack Query, React Hook Form/Zod, NativeWind and secure token storage.
- Implement integrations including Stripe payments, Google Maps/Places, SSO-related front-end behavior, REST APIs, file/preview workflows and print-focused font/Pantone metadata.
- Collaborate with backend, QA, DevOps, product and management teams on API contracts, releases, production troubleshooting, analytics/crash-monitoring R&D and onboarding improvements.

CO-Create | MERN / Next.js Developer | Aug 2024 - Jun 2025

- Developed responsive e-commerce and client applications using React.js, Next.js, JavaScript, Node.js, Express.js, MongoDB and Bootstrap.
- Integrated Razorpay payments, authentication/authorization, CRM and third-party services while supporting SEO-friendly, admin-managed dynamic websites.
- Converted Figma designs into responsive applications and used Git, Postman and AWS Lightsail/EC2 for development and deployment support.

ADSGOAT PVT LTD | MERN / Next.js Developer | Aug 2023 - Jul 2024

- Developed MERN-stack applications and REST integrations using React.js, Next.js, Node.js, Express.js and MongoDB.
- Integrated multiple advertising/network APIs, processed and stored data, and built reusable data-driven interfaces and dashboards.
- Implemented authentication/authorization, Redux state management, third-party integrations, code splitting and lazy loading for maintainable, performance-focused applications.

CORE STRENGTHS

- Production React development with reusable component architecture and responsive UI implementation.
- Complex forms, data-heavy screens, role/permission-based workflows and third-party API integrations.
- Web + mobile product experience across React, Next.js, MERN and React Native / Expo.

EDUCATION

B.Tech - Mechanical Engineering | Narasaraopet Institute of Technology (NIT), Narasaraopet
